Applied analytics professional with 3+ years of experience using Python, SQL, statistical methods, and business intelligence tools to solve operational and supply-chain problems across technology, financial services, and transportation. Experienced in automating production data workflows, analyzing datasets, and answering ambiguous business questions.

Technical Skills

Programming: Python (Pandas, NumPy) | SQL | R (tidyverse, ggplot2) | Machine Learning (scikit-learn, XGBoost)
Data Science: Time-Series Forecasting | Regression | Classification | A/B Testing
Platforms & BI: Azure Databricks | Power BI (DAX & M Query) | Tableau | Git

Professional Experience

Dell Technologies, Round Rock, TX

Global Production Planning Business Intelligence Analyst

Jan 2024 – Present

- Automate production-planning ETL workflows in Python and SQL that process 1M+ rows daily, saving 10+ hours per week and delivering reliable operational data for planning decisions.
- Develop 15+ Power BI dashboards and analytical reports used by 100+ weekly users to monitor manufacturing backlog, shipments, order stages, and capacity-related performance.
- Translate ambiguous business questions into analytical requirements, KPIs, data models, and decision-support reporting; partner with planners to interpret findings and resolve source-data issues.
- Manage 50+ workflows and supporting SQL Server systems; monitor scheduled processes, troubleshoot failures, validate outputs, and maintain technical documentation.
- Modernized 10+ legacy reports and migrated 20+ workflows and 15+ Power BI connections during a datamart retirement, testing dependencies to protect data integrity and continuity.

Dell Technologies, Round Rock, TX

ISG Market Intelligence Data Science Intern

Jun 2023 – Dec 2023

- Used Python and SQL to transform and analyze competitor financial data and \$18.5B+ in industry trends for product strategy and demand-planning stakeholders.
- Built an interactive Power BI solution for rapid ad hoc analysis; gathered business and technical requirements and presented methods, findings, and recommendations to senior leadership.

TD Bank, Mount Laurel, NJ

Consumer Deposit & Payment Products Product Specialist

Jul 2021 – Jul 2022

- Automated recurring data collection with VBA and analyzed operational data supporting 10,000+ customers; resolved workflow challenges affecting 1,158 branches.

Amtrak, Philadelphia, PA

Procurement & Supply Chain Business Analyst Intern

Jan 2021 – May 2021

- Analyzed procurement datasets for a \$16.5M AWS initiative and developed decision-support reporting for costs and operational KPIs in a transportation and supply-chain environment.

Featured Project

New York State COVID-19 Prediction & Impact Analysis | Python (Time Series, Linear Regression, A/B Testing)

- Evaluated statistical and forecasting models to predict infection rates and identify disparities across New York State populations.

Education

Temple University, Fox School of Business, Philadelphia, PA

Master of Science in Business Analytics, Summa Cum Laude | GPA: 4.0

Graduated Dec 2023

Rider University, Norm Brodsky College of Business, Lawrenceville, NJ

Bachelor of Science in Business Administration, Summa Cum Laude | GPA: 3.9

Graduated May 2021

Dual Major: Global Supply Chain Management & Finance (Investment Analysis)

Minor: Business Analytics | Certification: Leadership | Business Honor & Dean's List
